

INTRODUCING THE ENESPRO® AIRLITE ASCEND™ 40 CAL ARC FLASH SUIT

Featuring our Patent Pending DRIFIRE® 4.4™ 40 Cal System

ELECTRICAL SAFETY HOW IT SHOULD BE

CUSTOMER-CENTRIC

- Designed with electrical professionals to address your needs
- Delivered when you need it
- Dedicated experts are here for you

INNOVATION

- PPE you actually want to wear
- Featuring fabrics that breathe, garments that move, and gear that doesn't weigh you down
- Even our bag is better

OUR GOAL

- Make electrical safety how it should be ...easy and painless.
- We do our job so you can do your job and return home to your family

FEATURED PRODUCTS

ENESPRO® AIRLITE ASCEND™ 40 CAL ARC FLASH KIT

Featuring our Patent Pending

FEATURED PRODUCTS

ENESPRO® AIRLITE ASCEND™ 40 CAL ARC FLASH FEATURES

Featuring our Patent Pending
DRIFIRE® 4.4™ 40 Cal System

ATTENTION TO DETAIL

MORE MOBILITY

Stretch paneling now covers an even larger surface area, extending across the shoulder blades to give ultimate freedom of movement.

BETTER FIT

The arm hole was lowered to create a larger opening and stretch paneling was extended through the arm to create a better fit in a critical area of the suit

CUTTING EDGE GLOW-TRIM

The glow trim accents provide visibility even in complete darkness. Can be charged by ANY light source, and glows for up to 8 hours on a full charge.

CROSS-BACK STRAP DESIGN

Cross-Back strap design provides a more secure fit over the shoulders, so they won't slip off while working

ENESPRO® AIRLITE ASCEND™ 40 CAL ARC FLASH SUIT

ELECTRICAL SAFETY HOW IT SHOULD BE
